

Draint: The all New & Single Place for Collectors and Artists to Come Together

We never promise you to sell every single artwork you put up on here, because we are not like all these galleries out there. We want YOU to take action and to find your own customers. Don't be lazy and think creating the artwork is the online thing needed to be successful. Create one artwork and sell it first, before starting with the second one!

Therefore, we give you all tools at hand. Upload your artworks with love and detailed descriptions, set up your „About-Page“, show your Vita, link your Instagram Account Feed, create an own Blog and fill it with life by creating daily blog posts about work being in progress, ideas and visions or upcoming events you participate in. Because we all know, content is king.

Whenever an artwork gets re-sold between two collectors, we share our margin with you. This means you can earn multiple times with the same artwork even in 30 years from now.

Lastly, with our contact tool, you can create contacts and use our newsletter tool to reach out to them. Become a successful advertiser of your own Artist Band. Ultimately [Draint](#) is a trading page for Art.

Let's get started!

Happy to have you with us.
